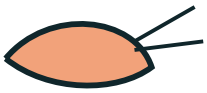
FISHY FRIENDS GUIDE

Bait guide

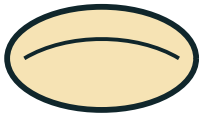
Good for: Bream, Flathead, Whiting, Mullet, Luderick, Snapper

Fresh bait catches more fish. Match the bait to the fish you want.



Prawn

Squid strip



Pippi

Bread

Green weed

Pilchard

YOU NEED

A small esky or bucket to keep bait cool, a bait board and a knife (grown-ups only).

STEPS

1. Prawns (raw, peeled): bream, whiting, flathead, trevally. Thread a whole small prawn onto the hook.
2. Squid strips: flathead, snapper, tailor, leatherjacket. Cut thin strips about finger length.
3. Pippies or worms: whiting and bream on sand. Soft, so cover the hook gently.
4. Bread or dough: mullet, bream and luderick. Pinch a pea-sized piece onto a tiny hook.
5. Green weed or cabbage: luderick. Wrap a small strand around the hook under a float.
6. Pilchards: tailor, kingfish and flathead. Use half a pilchard on a bigger hook.

KID TIP Small bait, small hook. Most harbour fish have little mouths!

STAY SAFE Keep bait out of the sun and take leftovers home. Don't feed birds.
